Designed for Aussie schools.

WHAT IS HUDDL?

Huddl is a mobile app that gives HPE teachers an objective, consistent way to assess fundamental movement skills.

Record a student performing a skill and Huddl analyses the movement, calculates key biomechanics and suggests a grade. Every result flows into a digital gradebook, ready for progress tracking, feedback and report comments.

HOW IT WORKS

- 1 Set up.** Import your class list and choose a skill to assess.
- 2 Record.** Capture a short clip of one student on a school device.
- 3 Review.** Huddl analyses the movement and suggests a grade. You confirm or adjust it.
- 4 Report.** Results land in the gradebook, ready for feedback and reporting.

Huddl suggests. The teacher decides.

No grade is assigned without a teacher reviewing it, and no video is ever stored. Huddl supports your judgement, it doesn't replace it.

KEY FEATURES

Classes

Import class lists, manage students and track assessment progress across every room you teach.

Assess

Record a skill and let computer vision analyse the movement. Get a data-driven grade in seconds.

Insights

Spot trends, compare performance and identify exactly where students need support.

Gradebook

All assessment data in one organised grid. See the biomechanics behind every grade.

Reports

Generate report comments, track curriculum coverage and share student progress instantly.

Account

Manage your school profile, notification settings and app preferences in one place.

Security, Privacy & School Information.

Everything your leadership team needs to know.

OUR PRIVACY PROMISES

No video is ever stored

Clips are processed on the device and deleted immediately after analysis.

No facial recognition

Huddl tracks body movement only. No biometric or facial data is collected.

Data stays in Australia

Hosted on Australian servers and encrypted in transit and at rest.

Your school owns the data

Never sold, shared across schools or used for advertising. Deleted on request.

Teachers stay in charge

Every grade is reviewed by a teacher. Students have no access.

WHAT HUDDL STORES

- Student name, class and year level
- Teacher name and school details
- Assessment results and biomechanical data
- Names can be anonymised by the teacher

WHAT HUDDL NEVER COLLECTS

- ✗ Video footage of students
- ✗ Facial recognition or biometric identifiers
- ✗ Location tracking or behaviour monitoring
- ✗ Anything beyond what assessment requires

HOSTING

DigitalOcean, Australia

ENCRYPTION

In transit & at rest

AUTHENTICATION

OTP for all teachers

COMPLIANCE

Privacy Act 1988 (Cth)

GETTING STARTED AT YOUR SCHOOL

Beta program

- Semester 2, 2026
- Free to use during the beta
- Available on iOS and iPadOS
- Participating schools help shape the grading algorithms before full launch

Founding Schools Program

- \$399 per year, locked in for life
- Up to 1,000 students
- Priority support and early feature access
- Limited to the first 100 schools

Full launch pricing

- Annual subscription
- Three tiers: small, medium and large schools
- Pricing that adapts to school size
- No per-teacher fees

School compliance

Huddl aligns with Department of Education guidelines for third-party apps. Schools can use Huddl under their existing Students Online procedures by running their standard parent notification and consent process. A ready-to-use parent letter and consent form is included on the next page. Questions? Contact admin@huddlapp.com.au

Dear families,

Our school is taking part in the beta program for **Huddl**, an Australian-made app that helps PE teachers assess fundamental movement skills. We are asking for your permission for your child to be included.

How it works

- 1 Your child performs a skill during a normal PE lesson.
- 2 The teacher records a short clip on a school device.
- 3 Huddl analyses the movement and suggests a grade.
- 4 The teacher reviews the result. The clip is deleted immediately.

What is stored

Only what is needed for assessment: your child's name, class and year level, and their assessment results. Nothing else.

Questions?

Speak with your child's PE teacher, or visit huddlapp.com.au/privacy-policy for Huddl's full privacy policy.

Our promises to you

✓ No video is ever stored.

Clips are processed on the device and deleted straight after. No footage is saved or sent anywhere.

✓ No facial recognition.

Huddl tracks body movement only. It does not identify faces or collect biometric data.

✓ Data stays in Australia.

Everything is securely hosted on Australian servers and encrypted.

✓ Your school owns the data.

It is never sold, shared with other schools, or used for advertising, and can be deleted on request.

✓ Teachers stay in charge.

Huddl suggests, the teacher decides. Students do not have access to the app.

> Please complete and return this section to your child's PE teacher

Consent

- ☐ Yes, I give permission for my child to take part in the Huddl program.
- ☐ No, I do not give permission for my child to take part.
